💼 Professional Experience

Infosys Limited

Senior Systems Engineer (Security Analyst L2)
Jul 2024 – present | Pune, India
- Microsoft Defender, Microsoft Intune, Trellix (formerly McAfee) ENS, Trellix FRP, VirusTotal, ServiceNow ITSM

Systems Engineer (Security Analyst L1)
Mar 2022 – Jun 2024 | Pune, India
- Microsoft Purview DLP, Microsoft Defender, Trellix ENS, Trellix FRP, VirusTotal, ServiceNow ITSM

Hindustan Aeronautics Limited
GAT - Endpoint Security Administrator (L1)
Sep 2021 – Mar 2022 | Nasik, India
Trellix Endpoint Security, Trellix Data Loss Prevention, In-house ITSM Software

📂 Projects

Client - A Global Leader in Automotive Industry
Domain - Endpoint Security
- Conducted regular ePO health checks, ensuring **100% system compliance** and optimal endpoint protection.
- Monitored and resolved alerts and incident queues in Microsoft Defender resolving issues promptly.
- Deployed, managed and troubleshot **Trellix ENS/VSE/FRP (formerly McAfee)** components for 40,000+ endpoints.
- **Implemented change management processes** for testing, onboarding and deploying AV products as well as creating exclusion policies.
- Prepared and maintained IIDs, KBs, SOPs and technical overview documents to support process improvement based on client requirements.
- Coordinated with stakeholders (Infra, Service Desk and Support teams) to manage, resolve and escalate incidents efficiently.
- Generated and delivered weekly and monthly performance analysis metrics reports to client leadership, contributing to strategic decision-making.
- Worked as a shared resource across multiple global projects, ensuring seamless security operations and compliance.

Client - A Global Leader in Automotive Industry
Domain - Data Loss Prevention
- Configured and optimized Microsoft Purview DLP to effectively **monitor, detect and prevent data leaks**.
- Implemented and managed **DLP policies**; monitored and investigated **DLP alerts**.

Client - A Leader in the Indian Aerospace and Defense Industry
Domain - Endpoint Security
- **Administered, managed and troubleshot antivirus infrastructures** including Trellix Agent, VirusScan Enterprise and DLP for 10000+ systems.
- Delivered **end-to-end support for antivirus solutions** and updated virus definitions.
- **Manual and scheduled deployment** of Trellix endpoint products to all the systems and servers in the infrastructure.
